

## Postdoctoral Position is available in Cancer Molecular Profiling

### Bioengineering Laboratory

Dr. Alexander Golberg at Tel Aviv University

<http://www.tau.ac.il/~agolberg/>

### Computer Science Laboratory

Prof. Zohar Yakhini at the Interdisciplinary Center Herzliya Israel and  
Technion Israel Institute of Technology

<http://zohary.cswp.cs.technion.ac.il/people>

A postdoctoral position is available for a project that aims to develop new approaches for cancer diagnosis and tumor molecular profiling. This is a new and ambitious project that aims to develop a novel approach for solid tumors diagnosis with particular emphasis on tumor heterogeneity. The project involves interdisciplinary teams from molecular biology, engineering and bioinformatics.

#### Required skills:

Molecular biology of cancer  
RNAseq library preparation, RT-PCR and ELISA development.

#### Advantages:

Animal models of breast cancer  
Bioinformatics skills

Applications should be sent to

Dr. Alexander Golberg at [agolberg@tauex.tau.ac.il](mailto:agolberg@tauex.tau.ac.il)
