We are proud to announce that our student Devashish Vikas Gupta has been awarded the highly prestigious Aditya Birla Scholarship. Devashish is pursuing his Mechanical engineering degree at BITS-Pilani, K K Birla Goa Campus. Since his early childhood, Devashish was fascinated by Mathematics, Music and Science. While studying in the 11th grade, he got intensely involved in research in the fields of Physics and Mathematics. He has the distinction of having published two research papers in international journals and is currently working on his third research paper.

In addition to academics, Devashish has several other feathers to his cap. He is a self-taught instrumentalist, music composer, producer and orchestrator. He has two international music collaborations with artists from USA and Canada, and has composed over thirty songs in two years (2015-2017). Devashish is also a Badminton player, and has played at the state level. He is a graphic designer as well. Devashish aspires to pursue further studies and research and make significant contributions in building our nations knowledge base.

Instituted in 1999, The Aditya Birla Scholarship Programme is the Aditya Birla Group's way of pursuing Mr. Aditya Vikram Birla's ideals of spawning leaders with a passion to excel. This is achieved through fostering outstanding academic excellence and humane leadership values, in partnership with select IITs, BITS Pilani, IIMs, and Law colleges.
This scholarship covers a large part of the academic fees as well as the hostel fees for the IITs / BITS stream. A total 160 students from the IITs and BITS (Pilani) were evaluated and short listed based on their overall achievements spanning academic and co-curricular excellence and the essays written by them. The shortlisted students were invited for a final round of interview conducted by an eminent panel of luminaries and academicians, which ultimately selects the best 16 students from - engineering and management and are named Aditya Birla Scholars.
