THIRD EDITION

INTERNET OF THINGS

Shriram K Vasudevan
RMD Sundaram
Abhishek S Nagarajan

WILEY

Acc. No : 50256

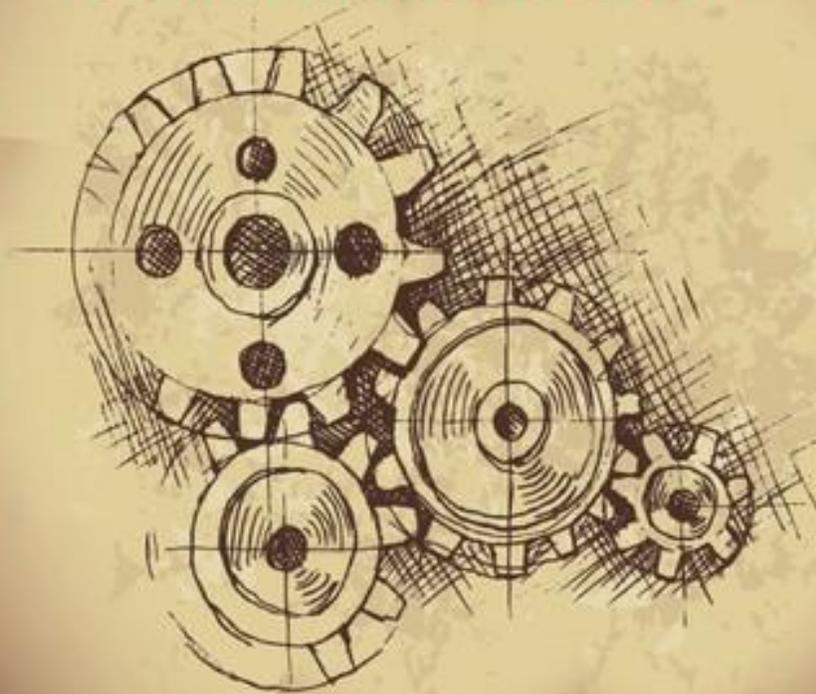

Call No : 004.678 VAS-S

The third edition of the Internet of Things builds on foundational concepts while incorporating the latest advancements in the field. It expands coverage on sensors, microcontrollers, and communication protocols, including IPv6. New topics such as digital twins, Open VINO, and the integration of AI or ML in IoT systems are introduced. A dedicated chapter on emerging trends explores innovations like quantum computing, autonomous vehicles, and drones. The edition also enhances discussions on IoT applications, challenges, and machine learning models, making it a comprehensive and up-to-date resource for learners and professionals. In addition to these updates, we have elaborated on key concepts such as growth of IOT its various application areas and the challenges it faces...

WILEY

MACHINE LEARNING FOR FUTURE WIRELESS COMMUNICATIONS

By: Fa-Long Luo

IEEE PRESS

Acc. No : E-book

Call No : 006.32 LUO-F

Deep neural networks-based machine learning technology is a promising tool to attack the big challenge in wireless communications and networks imposed by the increasing demands in terms of capacity, coverage, latency, efficiency, flexibility, compatibility, quality of experience and silicon convergence. The author, a noted expert on the topic, covers a wide range of topics including system architecture and optimization, physical-layer and cross-layer processing, air interface and protocol design, beamforming and antenna configuration, network coding and slicing, cell acquisition and handover, scheduling and rate adaptation, radio access control, smart proactive caching and adaptive resource allocations. Due to...

ASHDIN DOCTOR

31 Habits for a Supercharged Life

FROM THE
BESTSELLING
AUTHOR OF
**ONE HABIT
A DAY**

SMALL ACTIONS, BIG RESULTS

BASED ON THE POPULAR IVM PODCAST,
THE HABIT COACH™

Acc. No : 50001

Call No : 158.1 DOC-A

Practical and easily-actionable advice from everyone's favourite Habit Coach™, Ashdin Doctor. Life is rough in this modern age. Everyone seems to be chasing a deadline or, worse, staring a burnout in the face. If only there were a way to manage the high stress of our work and life better, and also increase our productivity at the same time! But how? There are only twenty-four hours in a day, and surely we need to rest and recover, too? What is the trick to getting stuff done while keeping anxiety at bay? Habit Coach™ Ashdin Doctor has some no-nonsense coping strategies. His simple, fuss-free habits are easy to integrate into our daily lives. Each habit that he proposes, be it mindfulness or tricks to improve time management, can be seamlessly added to our routines, providing a road map for transforming...

NOBUO SUZUKI
Foreword By Héctor García

Maneki Neko

The Japanese Secret
to Good Luck and Happiness

Acc. No : 48362

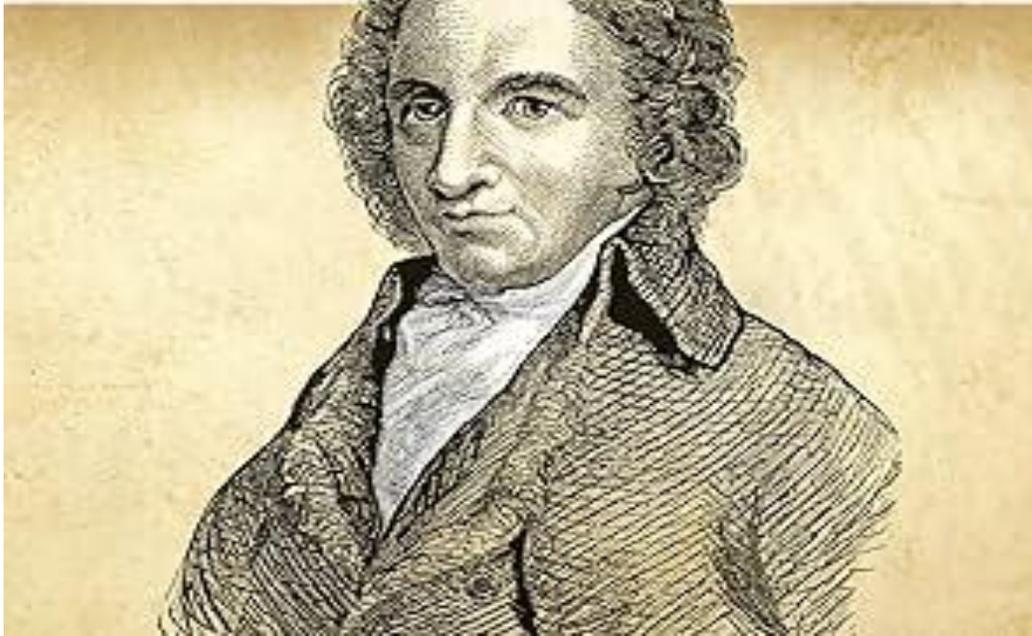

Call No : 158.52 SUZ-N

This insightful book by a leading expert on the subject explores how good luck symbols and rituals in Japan are used in tandem with diligence and a positive attitude to help people overcome life's many twists, turns and bad patches. It explores how customs and beliefs play a vital role in creating positive expectations and outcomes and includes practical exercises for bringing good fortune and happiness into your own life. Author Nobuo Suzuki acquaints us with beloved Japanese icons of luck, prosperity, and goal-setting and explains what they truly represent, including Maneki Neko the Lucky Cat, Daruma the Lucky Buddha and the Seven Lucky Gods of Good Fortune. We even meet some quirky and much beloved modern Japanese symbols of luck, like the Golden Poop yes, you read that right. And we learn...

Thomas Paine

THE AGE OF REASON

Acc. No : 50282

Call No : 211.5 PAI-T

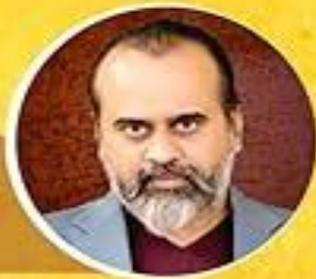

Of all the tyrannies that affect mankind, tyranny in religion is the worst, declared Thomas Paine, adding, every other species of tyranny is limited to the world we live in; but this attempts to stride beyond the grave, and seeks to pursue us into eternity. Paine's years of study and reflection on the role of religion in society culminated in his final work, *The Age of Reason*. This coolly reasoned polemic influenced religious thinking throughout the world at the dawn of the nineteenth century, and its resonance remains undiminished by time. The selfsame humanist and egalitarian views that made Paine a popular figure of the American Revolution brought him into frequent conflict with political authorities. Parts of *The Age of Reason* were written in a French jail, where Paine was confined for his...

Excellence

Are You Ready To Rise?

Acharya Prashant

Acc. No : 50302

Call No : 213 PRA-A

What is the definition of excellence in the domain of the inner world? How does spirituality define excellence when it comes to the everyday challenges of the academic environment, choosing a career, ambition, success, greatness, and the quality and direction of life in general? In this book, Acharya Prashant answers these questions by conversing with students, professionals and seekers who wish to understand themselves and life better in the light of spiritual wisdom. As a graduate of IIT and IIM and a former Civil Services officer who ultimately found his individual path as a Vedanta teacher, Acharya Prashant's teachings contain invaluable insight for all who wish to improve their respective life situations, choose the right kind of goals to achieve, understand the world within and without with more...

AKEEL BILGRAMI

Capital, Culture, and the Commons

Acc. No : 50057

Call No : 306 BIL-A

The idea of the commons is of something shared without rivalry, whether it is land, the environment, or knowledge. The survival of the commons depends on human co-operation. In *Culture, Capital, and the Commons*, Akeel Bilgrami asks: Can human co-operation be enforced by regulation and by policing and punishing non-cooperation? Invoking ideas in thinkers ranging from Nietzsche and Marx to Wittgenstein, Foucault, and Bishop Tutu, the book explores the extent to which regulation and the law depend on a background of the cultural commons that is implicit and inarticulate, and the extent to which the cultural commons is itself sustained by overcoming alienated human relations. The commons is a subject almost impossible to hold in mind without referring to its diminishment and destruction...

Selections from the
Prison Notebooks

Antonio Gramsci

Acc. No : 50097

Call No : 320.01 HOA-Q

One lets a man starve until he is fifty; when he is fifty, one finally notices him. In private life, such behaviour would warrant a good kicking. In the case of the state, it appears to be a merit in 1933. Antonio Gramsci 1891–1937 even today, our states and their actors tell the same story. This explains the continued appeal of Antonio Gramsci's prison notebooks for our cultural theorists and political commentators, including Raymond Williams, Stuart Hall, Edward Said, and Terry Eagleton, and the new left review contributors. Gramsci's relentless conflict with alternative and opposition forces finds the most lucid and extended expression in his prison notebooks. Selections from the prison notebooks, translated, edited, and annotated helpfully in this edition, will make it easier for both the...

START EARLY, FINISH RICH

FINANCE
MANAGEMENT
FOR KIDS &
YOUNG ADULTS

ANIL LAMBA

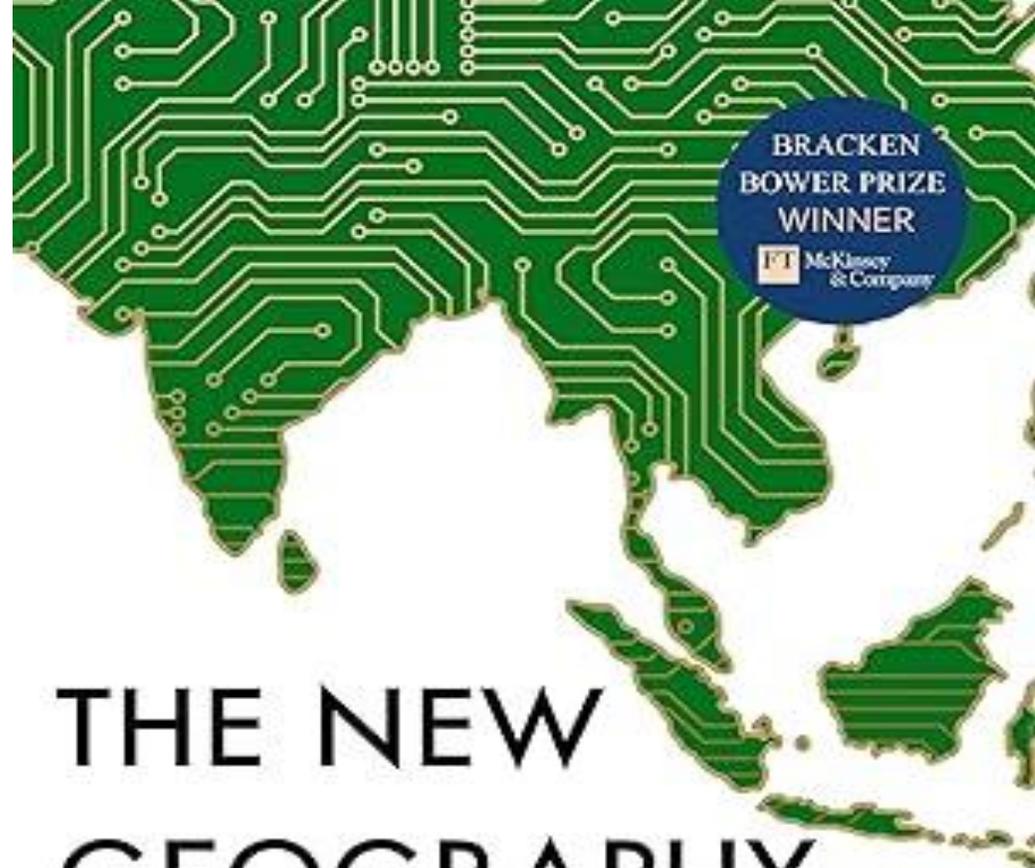

Bestselling author of *Romancing the Balance Sheet*

Acc. No : 50325

Call No : 332.024 LAM-A

This book is an attempt to equip kids and young adults with the financial knowledge needed to make intelligent investment and business decisions, so that when they are ready to leap, they can hit the ground running. Written for young readers, Start Early, Finish Rich will help them becoming finance- and business-savvy early in life and empower them with the knowledge and confidence to make wise financial choices and build a secure future. Nobody can disagree that money plays a very important role in life. But how did it all begin? Hundreds of years ago, when money was not yet invented, we had what is known as the barter system. If I made shirts and you grew wheat, I would offer you a shirt in exchange for a bag of wheat. But the problem with this system was that, a few days later, I would...

THE NEW GEOGRAPHY OF INNOVATION

The Global Contest For
Breakthrough Technologies

MEHRAN GUL

Acc. No : 50395

Call No : 338.064 GUL-M

The US is the source of just about all the technologies that define modern life: personal computers, operating systems, smartphones, e-commerce, web browsers, email, search engines, social networks, electric cars and the rest. And most of the tech companies that created and monetised these technologies are also in the US. In this book Mehran Gul, the winner of the Financial Times or McKinsey Bracken Bower Prize, asks: is that changing? Less than a decade ago, the sentiment towards Chinese tech companies was often dismissive and complacent. Now the alarm bells are ringing. But as the commentariat pontificates how the US–China tech battle will play out, an equally interesting question to ask is are there more Chinas out there? Places no one is taking seriously now that might turn out to be massively...

Indian Constitution

Conflicts and Controversies

Subhash C Kashyap

Acc. No : 50249

Call No : 342.5402 KAS-S

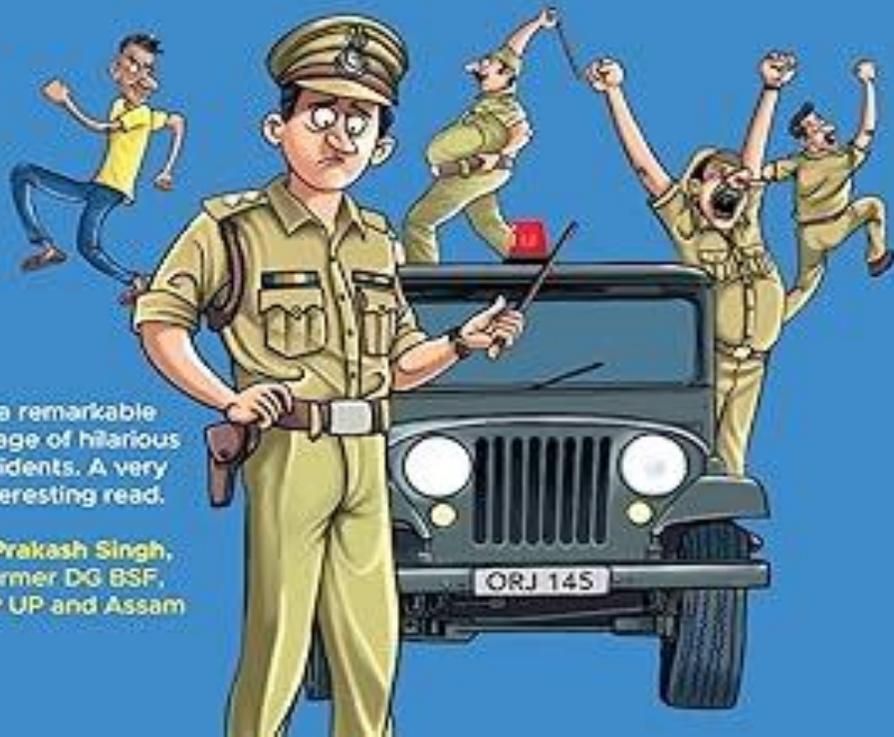

The Constitution of India has been India's greatest achievement since independence. The country can take legitimate pride in the fact that the constitution has survived all the pressures, stresses and strains inflicted on the body politic by malevolent forces, both internal and external. It has emerged stronger from the many crises, conflicts and controversies. In fact, the constitution has been in the making all through the last sixty years. This book brings together for the first time a selection from the many contemporaneous notes and opinions on crucial issues involving the interpretation of key concepts and provisions of the Constitution. These were written in response to the controversies raised or difficult conflict situations then prevailing. The author was in some ways privy to...

PRAKASH MISHRA, IPS

COMEDY IN KHAKEE

The Humorous Memoirs of a Policeman

...a remarkable collage of hilarious incidents. A very interesting read.

—Prakash Singh,
Former DG BSF,
DGP UP and Assam

Acc. No : 50410

Call No : 363.20207 MIS-P

Welcome to the land of Khakee, where common sense sometimes goes on vacation, and chaos runs the show! From eccentric DIGs who turn inspections into fun rituals to a Commissioner doing squats in a dhoti for better digestion, police stations are never short of action. When a bomb turns out to be the abandoned work of a thief, it's not the bag that explodes, it's the author, with laughter! When faced with a ferocious dog, the officer's strategy of dodging furniture ends in a classic comedy of errors and a few bite marks. Written from years of experience, Comedy in Khakee is a unique insight into the daily experiences of a police officer. Light-hearted and engaging, it provides a much-needed break from the often serious nature of law enforcement, mixing it with humour. A refreshing take that reminds...

The Recursive Universe

Cosmic Complexity and the
Limits of Scientific Knowledge

William Poundstone

Acc. No : 50425

Call No : 523.1 POU-W

No winners, no losers, and no end. The Game of Life, also known simply as Life, is no ordinary computer game. Created by British mathematician John Horton Conway in 1970, Life debuted in Scientific American, where it was hailed as the key to a new area of mathematical research, the field of cellular automata. Less of a game than a demonstration of logical possibilities, Life is based on simple rules and produces patterns of light and dark on computer screens that reflect the unpredictability, complexity, and beauty of the universe. This fascinating popular science journey explores Life's relationship to concepts in information theory, explaining the application of natural law to random systems and demonstrating the necessity of limits. Other topics include the paradox of complexity...

Philip Korman

LECTURES ON LINEAR ALGEBRA AND ITS APPLICATIONS

GIB

Acc. No : 49960

Call No : 515.55 KOR-P

The present book is based on the extensive lecture notes of the author and contains a concise course on Linear Algebra. The sections begin with an intuitive presentation, aimed at beginners, and then often include rather non-trivial topics and exercises. This makes the book suitable for introductory as well as advanced courses on Linear Algebra. The first part of the book deals with the general idea of systems of linear equations, matrices and eigenvectors. Linear systems of differential equations are developed carefully and in great detail. The last chapter gives an overview of applications to other areas of Mathematics, like calculus and differential geometry. A large number of exercises with selected solutions make this a valuable textbook for students of the topic as well as lecturers, preparing...

DR PETER ATTIA

WITH BILL GIFFORD

RETHINKING MEDICINE  TO LIVE BETTER LONGER

Acc. No : 50286

Call No : 612.68 ATT-P

For all its successes, mainstream medicine has failed to make much progress against the diseases of ageing that kill most people: heart disease, cancer, Alzheimer's disease, and type two diabetes. Too often, it intervenes with treatments too late, prolonging lifespan at the expense of quality of life. Dr Peter Attia, the world's top longevity expert, believes we must replace this outdated framework with a personalised, proactive strategy for longevity. This isn't biohacking, it's science: a well-founded strategic approach to extending lifespan while improving our physical, cognitive and emotional health, making each decade better than the one before. With Outlive's practical advice and roadmap, you can plot a different path for your life, one that lets you outlive your genes to make each decade better than the one...

 Materials in Engineering Engineering Materials Engineering Mechanics-Statics

Acc. No : 48148
Call No : 620.112 NAS-W

Each Chapter begins with an outline of important concepts, shows how they apply in fully worked-out problems, and ends with questions and answers for self-testing. Equal weight is given to the mechanics of rigid bodies and the mechanics of deformable bodies. This indispensable study tool also shows readers exactly how to develop 11 Computer programs, adaptable for most PCs, and how to use these programs to solve problems. This book gives you the information teachers expect you to know in a handy and succinct format without overwhelming you with unnecessary details. You get a complete overview of the subject and no distracting minutiae. Plus, you get plenty of practice exercises to test your skill. Compatible with any classroom text, Schaum's lets you study at your own pace and remain...

FUNCTIONAL THIN FILMS TECHNOLOGY

Edited by
Sam Zhang
Jyh-Ming Ting
Wan-Yu Wu

Acc. No : 49648

Call No : 621.39 ZHA-S

Functional Thin Films Technology features the functional aspects of thin films, such as their application in solar selective absorbers, fibre lasers, solid oxide fuel cells, piezo-related areas, catalysts, superhydrophobicity, semiconductors, and trace pesticide detection. It highlights developments and advances in the preparation, characterisation, and applications of functional micro-/nano-scaled films and coatings. This book presents technologies aimed at functionality used in nanoelectronics, solar selective absorbers, solid oxide fuel cells, piezo-applications, and sensors. Covers absorbers, catalysts, anodic aluminium oxide, superhydrophobics, and semiconductor devices. Features a chapter on transport phenomena associated with structures. Discusses transport phenomena and...

SMART CEMENT

DEVELOPMENT, TESTING, MODELING AND REAL-TIME
MONITORING

Cumaraswamy Vipulanandan

Over three billion metric tons of cement are produced annually worldwide, making concrete the most extensively used construction material. Self-sensing, or smart, cement allows real-time monitoring of performance through the entire service life of a concrete structure, for the detection of changing stresses, contamination, excessive temperature, gas leaks and pre-seismic activity. This is achieved by adding a very small proportion of conductive or semi-conductive fibres, such as carbon fibres, to the bulk cement, making it piezoresistive, and enabling changes in the concrete's electrical resistivity in response to shear stress and strain to be monitored. This state-of-the-art reference work presents experimental results with a realistic theoretical framework, for cement manufacturers...

O'REILLY™

SECOND EDITION REVISED & EXPANDED

Product Management in Practice

A PRACTICAL, TACTICAL GUIDE FOR YOUR FIRST DAY AND EVERY DAY AFTER

MATT LEMAY
FOREWORD BY NATALIA WILLIAMS

Acc. No : 48058

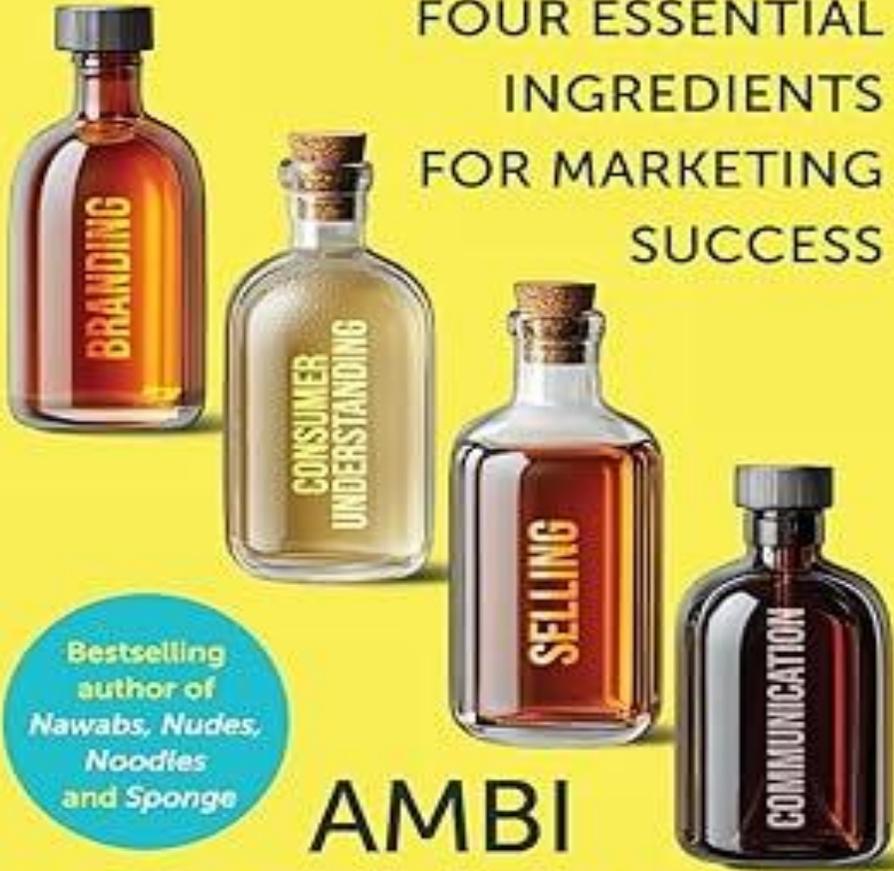

Call No : 658.5 LEM-M

Product management has become a critical function for modern organisations, from small startups to corporate enterprises. And yet, the day-to-day work of product management remains largely misunderstood. In theory, product managers are high-flying visionaries who build products that people love. In practice, they're hard-working facilitators who bring clarity and focus to their teams. In this thoroughly revised and expanded edition, Matt LeMay provides real-world guidance for current and aspiring product managers. Updated for the era of remote and hybrid work, this book provides actionable answers to product management's most persistent and confounding questions, starting with: What exactly am I supposed to do all day? With this book, you'll learn what the day-to-day work of product management...

Expert brand coach and advertising or marketing veteran Ambi Parameswaran distils the four core skills you need to thrive, understanding consumers, brand building, negotiation and selling, and communication, offering practical insights and new-age wisdom for both seasoned professionals and aspiring marketers. Master the art of agile marketing, turbocharge your career and make your brand relevant in a world that never stops changing. In this book, you will take a deep dive into these four essential skills. But you may ask, is that all? Not really. To be successful in marketing, you do need several...

ELON MUSK and the MOST CONTROVERSIAL
CORPORATE TAKEOVER in HISTORY

Breaking Twitter

Ben Mezrich

NEW YORK TIMES BESTSELLING AUTHOR
OF THE ACCIDENTAL BILLIONAIRES

Acc. No : 48297

Call No : 658.872 MEZ-B

In October 2022, Elon Musk marched through Twitter's front doors after buying the digital giant for \$44 billion. His takeover came with the promise of fundamental change, but nothing could prepare the company for the chaos to come: brutal mass firings, an exodus of advertisers and blue-tick celebrities and a vicious battle for control. With unique access to Twitter insiders and Musk's confidants, this is the astonishing story from all sides. Why did Elon overhaul Twitter's blue-tick system, and how did it lead to the near-collapse of the company's revenue? Will Twitter now X survive? How has the constant negative press coverage affected Elon? With a wealth of hidden details, *Breaking Twitter* gives ringside seats to one of the most dramatic and compelling business stories of our time. The whole...

and Legendary Power Struggles
that Drive Formula One

FAST **MONEY**

CHRISTIAN SYLT & CAROLINE REID

Acc. No : 50354

Call No : 796.72 REI-C

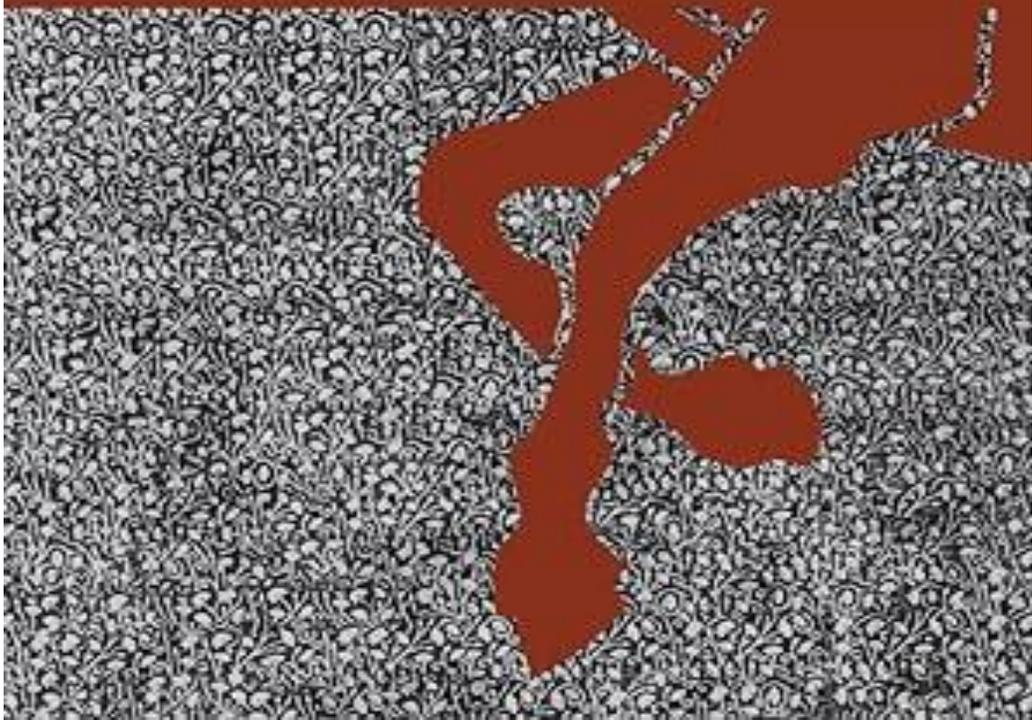

Few sports are as synonymous with money as Formula One. Its drivers are among the world's most highly paid athletes, and it costs more than a billion pounds to keep its ten teams ticking over. Celebrities and their entourages flock to glamorous locations around the world, such as Monaco, Miami, and Las Vegas, to be seen on the grid or lounging on a superyacht. This is a sport where money, the spending of it, the flaunting of it, the ruthless pursuit of it, matters. *Fast Money* will be the first book to treat F1 as the business it is. As one of the world's most popular sports, and with races in far corners of the globe, F1 is big business. With unparalleled insight and decades of reporting, they describe the pivotal moments that have driven the sport to new heights, the influx of tobacco advertising...

G. N. DEVY
'Of Many Heroes'

An Indian Essay in Literary Historiography

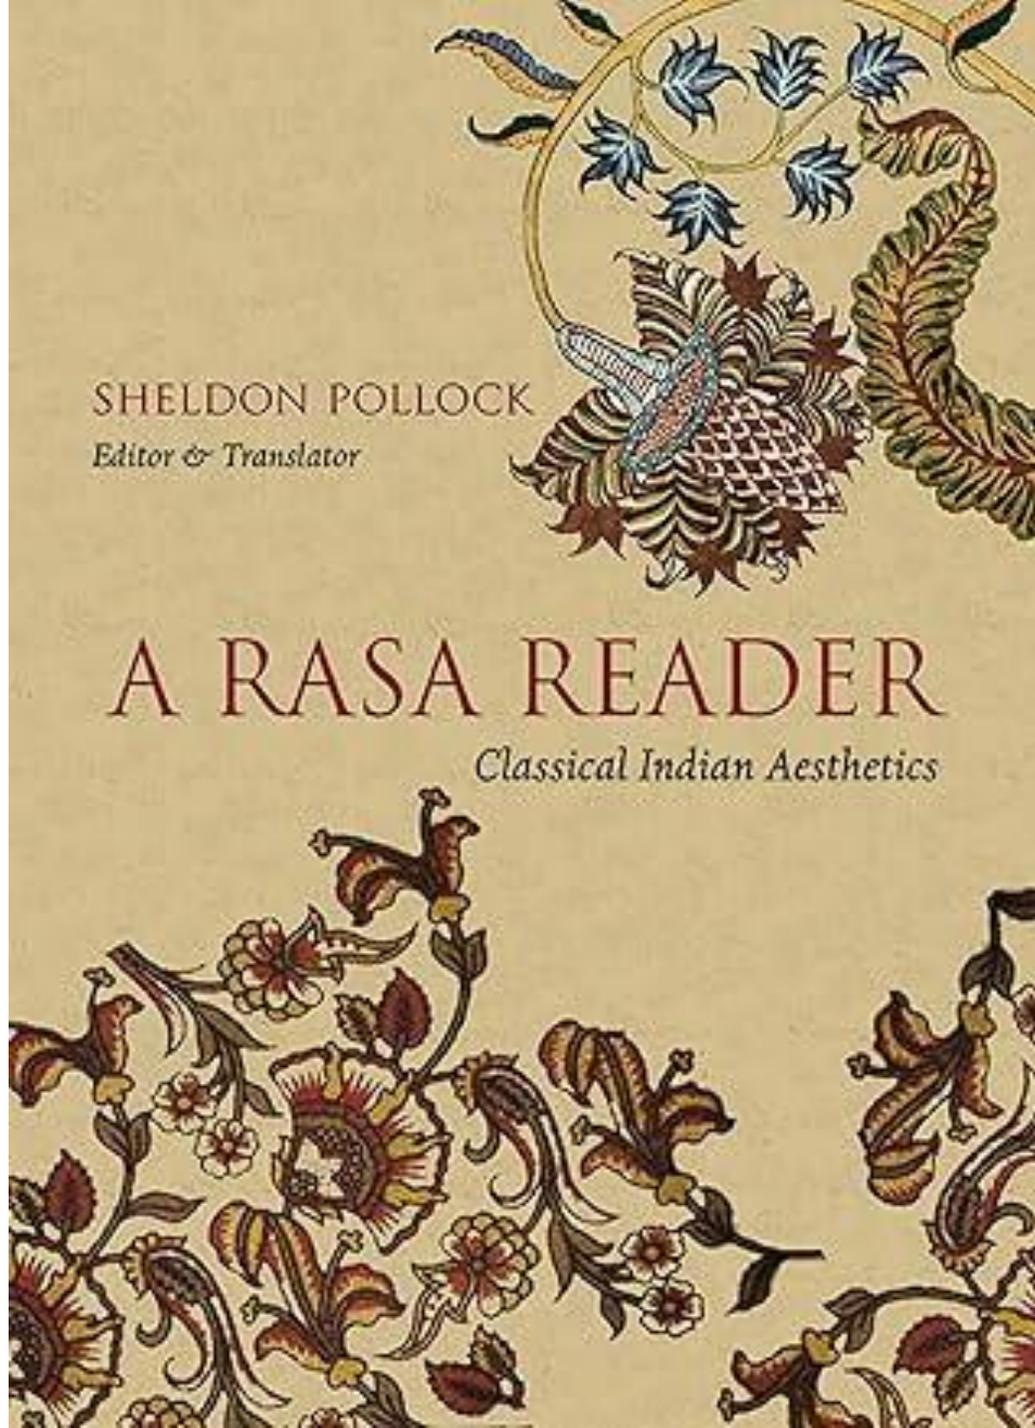

Second edition

Acc. No : 50085

Call No : 809.954 DEV-G

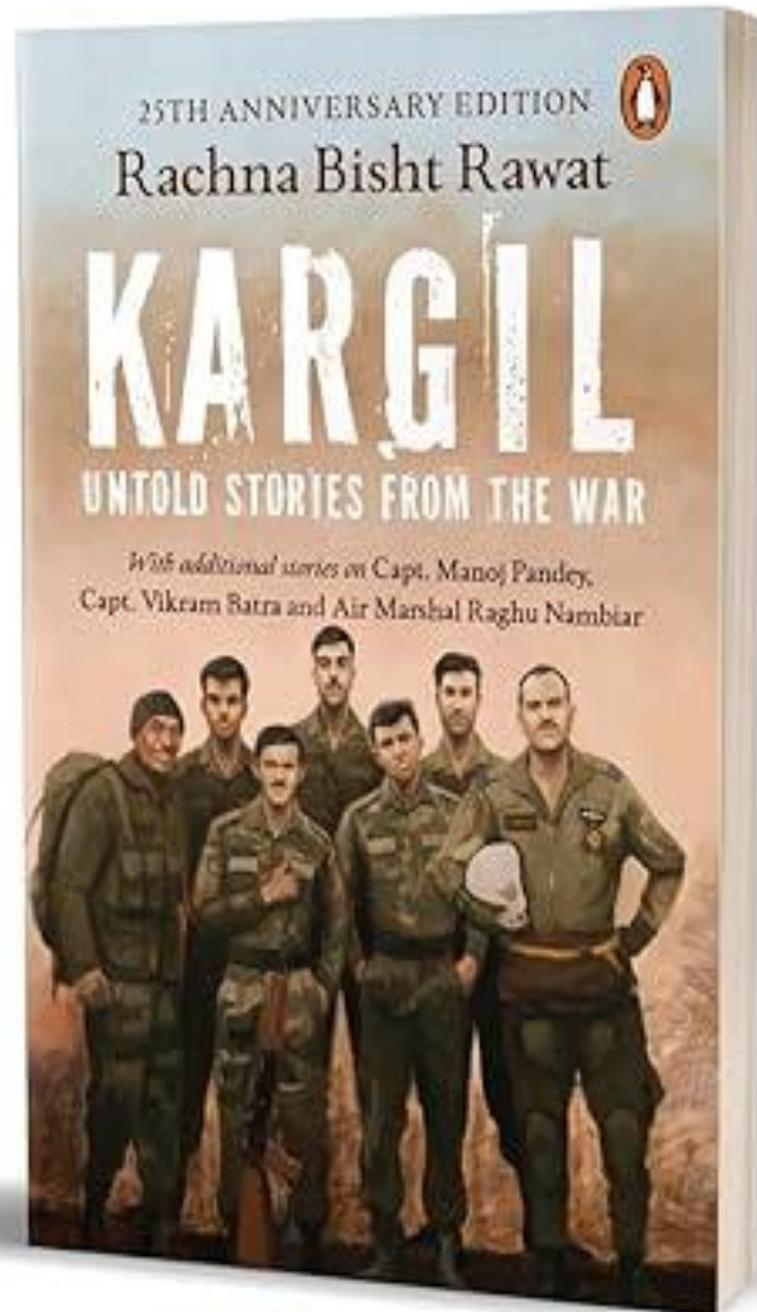

Of Many Heroes is a companion volume to the Sahitya Akademi award-winning title, *After Amnesia: Tradition and Change in Indian Literary Criticism*. *Of Many Heroes* explores literary history in India over the past two thousand years. It examines various historiographical statements issued in ancient, medieval and modern India. It also analyses the impact that colonising India had on literary historiography in Britain. A brief account of some major twentieth-century theories of literary history in the West is presented in this volume, in juxtaposition with an account of historiographical approaches to literature in contemporary India. The volume also studies theoretical questions related to para-literature, literary translation and oral traditions, and argues for their inclusion in literary canons...

Acc. No : 50090

Call No : 954.02 POL-S

From the early years of the common era to 1700, Indian intellectuals explored with unparalleled subtlety the place of emotion in art. Their investigations led to the deconstruction of art's formal structures and broader inquiries into the pleasure of tragic tales. Rasa, or taste, was the word they chose to describe art's aesthetics, and their passionate effort to pin down these phenomena became its own remarkable Act of creation. This book is the first in any language to follow the evolution of Rasa from its origins in dramaturgical thought, a concept for the stage, to its flourishing in literary thought concept for the page. A Rasa reader incorporates primary texts by every significant thinker on classical Indian aesthetics, many never translated before. The arrangement of the selections captures the...

Acc. No : 50124

Call No : 954.0524 RAW-R

Why does a group of stranded paratroopers call for Bofors' fire upon its own position? Why is an old man in Palampur fighting for justice for his dead soldier son? What makes a martyr's father visit a young Kashmiri girl every year? Kargil takes you into the treacherous mountains where some of the Indian Army's bloodiest battles were fought. Interviewing war survivors and martyrs' families, Rachna Bisht Rawat tells stories of extraordinary human courage, of not just men in uniform but also those who loved them the most. With its gritty stories of incomparable bravery, Kargil is a tribute to the 527 young braves who gave up their lives for us, and the many who were ready to do it too. In early 1999, exactly twenty years ago, Pakistani regulars, disguised as jihadis, crossed over into the cold, barren...

UNSEEN

THE UNTOLD STORY OF
DEEPINDER GOYAL
AND THE MAKING OF ZOMATO
MEGHA VISHWANATH

Acc. No : 50324

Call No : Biography VIS-M

This is not a biography. Nor is it a linear march of a man from childhood to success. Unseen is the anatomy of a founder who doesn't chase stability but thrives in contradictions, restless yet laser focused, flirting with high stakes and uncertain outcomes. In July 2021, as Zomato became India's first tech unicorn to go public, its founder, Deepinder Goyal, was largely untouched by the reverberating glory. Unseen begins where most stories end, at the peak, only to pull you into the shadows that shaped it. Through the eyes of former journalist Megha Vishwanath, this is the deeply personal journey of a stuttering boy from small-town Punjab who grew into the reluctant face of a billion-dollar brand. Vishwanath pieces the narrative through hundreds of interviews, capturing the voices of those who worked with...

Lucy Marshall has hit rock bottom. After failing to succeed as a single mom in Atlanta, she's back home and moving in with her older brother, Drew. Reconnecting with her support system is the right thing to do, but Lucy can't help but feel like a failure. Her four-year-old son deserves the world, and all she can give him is a spare bedroom. But Drew is the sweetest uncle, and some quality time might be exactly what they both need to start fresh. That is, until she meets Cooper, her brother's incredibly hot best friend. When Drew senses something between the two of them, he puts his foot down on any shenanigans. According to him, Cooper is everything Lucy should stay away from: flirtatious, adventurous, and especially noncommittal. But Lucy has been getting the opposite impression so far; Cooper is a genuinely...
