Message from HOD

Welcome to the BITS Pilani Goa Campus Department of Computer Science and Information Systems, which began operations in 2004. Our department has about a thousand students, as well as 27 faculty and four staff personnel. In the field of computer science, we offer both first-year and advanced-degree programmes. We currently have 41 PhD students, with some of them receiving external funding.

The department's principal goal is to provide our students with an overall development experience that includes a balance of intellectual and practical experiences that prepares them to meet a variety of social needs. This is aided by a strong infrastructure and a dedicated faculty.

Our department has active research groups that work together to conduct collaborative and interdisciplinary studies. Our study is supported by cutting-edge research facilities. Every year, we get around Rs 60 crore on average from external funding, which is used to support Ph.D./JRF students and state-of-the-art facilities.

Prof. Vinayak
Naik

About the Department

The Department of **Computer Science and Information Systems** at BITS Goa endeavor to produce engineers of tomorrow by imparting instruction with advanced curriculum, AI Research Center and research methodologies in modern areas of Computer Science.

The Department of Computer Science and Information System of Goa campus presently offers

- **BE** started admitting students in the year 2004,
- **ME** started admitting students in the year 2009, and
- **Ph.D** degrees in the year 2004.

The department has an outstanding student strength over 1000. The department has an adequate amalgamation of the faculty with the experience of reputable academic institutes and industry. The department offers a wide range of courses in areas including Data Structure and Algorithms, Database Systems, Digital Design, Computer Networks, Cryptography, Machine Learning, Software engineering etc.

The department consists of well-maintained laboratories, AI Research Center and the faculties and students of the department are actively involved in research in major contemporary fields. The department regularly hosts a number of popular research conferences

Faculty and Areas of Research

Dr. A Baskar

Designation	:	Assistant Professor Gr-I
Qualification	:	Ph.D. (Chennai Mathematical Institute)
Joined in BITS	:	2013
Prior Experience	:	2 Years
Areas of Interest	:	Theory Formal Language and Automata Theory, Logic in Computer Science, Security Protocols and Verification
Publications	:	8
Courses Taught	:	Theory of Computation, Data Structures and Algorithms, Artificial Intelligence, Logic in Computer Science, Introduction to Computer Programming

Faculty and Areas of Research

Dr. Anup Basil
Mathew

Designation : Assistant Professor Gr-I

Qualification : Ph.D. (IMSc, Chennai)

Joined in BITS : December 2018

Prior Experience : 1 Year

Areas of Interest : **Theory**

Synthesis of programs for distributed systems,
Logic and Automata theory,
Modal Logics, in particular Epistemic Logic

Publications : 4

Courses Taught : Computer Programming, Discrete Structures,
Design and Analysis of Algorithms,
Data Structures and Algorithms

Faculty and Areas of Research

Dr. Basabdatta
Sen Bhattacharya

Designation	:	Associate Professor
Qualification	:	Ph.D. (University of Manchester, UK)
Joined in BITS	:	2018
Prior Experience	:	(Industry: 6 Years; Academia: 2 Years (pre-PhD) + 12 Years (post-PhD))
Areas of Interest	:	Data Science

Spiking Neural Networks, Computational Neurology,
Brain inspired Machine Intelligence, Brain inspired
Reinforcement Learning,
Neural Coding, Visual recognition, Speech and Text Recognition
for Indian Languages

Publications	:	54
Courses Taught	:	Neural Networks, Foundations of Data Science, Computer Architecture, Reinforcement Learning,

Faculty and Areas of Research

Dr. Biju K.
Raveendran

Designation : Associate Professor

Qualification : Ph.D. (BITS Pilani, Pilani)

Joined in BITS : 2009

Prior Experience : -

Areas of Interest : **Systems**

Real - time / Embedded Operating Systems,
High Performance Operating Systems for HiPC and Cloud,
Low Power Embedded Architecture,
Storage Systems, P2P Overlay Networks.

Publications : 27

Courses Taught : Operating Systems, Advanced Operating Systems,
Software for Embedded Systems, Real - time Systems ,
Computer Architecture, Advanced Computer Architecture
