Herbal mouthwash formulation

NEED

Enveloped virus-related infections, such as cold sores and respiratory infections, are common and can significantly impact oral health. Current mouthwash solutions often lack specific antiviral properties, leaving gaps in prevention.

TECHNOLOGY OVERVIEW

This herbal mouthwash concentrate contains a blend of natural plant extracts known for antiviral properties, combined with ethanol for enhanced efficacy. The formulation helps inhibit enveloped virus infections while providing a pleasant taste and odor.

TECHNOLOGY KEY FEATURES

Herbal formulation with extracts like Bacopa monnieri, Asparagus racemosus, and Glycyrrhiza glabra; inhibits enveloped viruses; pleasant taste; shelf life of 3-6 months; enhances oral hygiene with minimal side effects.
