ABOUT US

The Department of Pharmacy at BITS - Pilani – Hyderabad Campus is one of the premier departments in the institute that focuses on internationally competitive teaching and research activities as per the need of pharmaceutical industry. The department offers three different levels of programs: B. Pharmacy, M. Pharmacy and PhD, that are designed with an aim to keep pace with the rapidly evolving pharmaceutical industry that

demands unwavering passion and urge to innovate.

The broad spectrum of courses are taught by a group of highly experienced faculty members active in research work in their respective areas. The curriculum –is rigorous in design and content, and - is keeping line with the latest developments in the industry. Department is actively involved in innovative research practices in collaboration with various pharmaceutical industries and national/international research institutes. The department received funding from various pharmaceutical industries (Novartis, Yamanuchi

Pharmaceuticals Limited (Japan), Daewoong Pharmaceuticals (South Korea), AstraZeneca, Sun Pharma Advanced Research Company, Slay Back pharma, Transform SciTech, ISSAR Pharmaceuticals, Acubiosys, Incilia Therapeutics, Incozen Therapeutics, Medicen Devise Technologies, etc.) and Government agencies (DST, DBT, CSIR, ICMR, DHR, etc.) in a continuous process to strengthen its research capabilities. Five of the faculty members of the department have been featured among the Stanford university list of World Top 2% Scientists. The Department of Pharmacy has been ranked 3rd nationally by NIRF in 2021 and being in top 06 rank since 2017 in NIRF Pharmacy subject ranking.

FELLOWSHIPS / AWARDS (SELECTED) RECEIVED BY OUR PHD SCHOLARS

- SRF Fellowships from ICMR
- SRF Fellowships from Lady Tata Memorial Trust (LTMT)
- SRF Fellowships from CSIR
- JRF Fellowships from UGC
- Inspire Fellowships from DST
- Travel grants for attending international and national conferences
- Best oral and poster presentation awards from various National and International agencies.

RESEARCH AND DEVELOPMENT

The faculty members of our department work on both translational and basic research in collaboration with various pharmaceutical industries, research institutes and hospitals. The department possesses state of the art laboratory facilities and equipment to facilitate high quality research in the field of Pharmaceutical Sciences. A few of our labs are showcased in the gallery below.

- Pharmaceutics research labs
- Translational pharmaceutics research lab
- Pilot scale machine room
- Drug discovery & chemistry labs
- Natural products chemistry lab
- Epigenetic research lab
- Cell culture labs
- Pharmacology labs
- Consultancy project lab
- Molecular biology lab
- DST-FIST lab
- State of the Art Animal House (CPCSEA approved).
