

## **BITS Pilani inks research tie-up with Ion Exchange:**

**BITS Pilani, K K Birla Goa Campus, and Ion Exchange India have signed a 'collaborative research agreement' to work on water treatment. Anirban Roy of the department of chemical engineering, Snehanshu Saha and Santonu Sarkar of the department of computer science and information systems will be working on some of the challenges related to the sector. Suman Kundu, director of BITS Pilani KK Birla, Goa campus and Sridhar Padmanabhan, senior vice-president of Ion Exchange, signed the agreement. There will also be further collaboration between the two entities in student exchanges and internships.**
